

WEEE Policy

Andor Technology produces

- Digital Cameras and accessories
- Spectrographs and accessories
- Microscopy systems and accessories

This equipment is classified as category 9 equipment 'Monitoring and Control instruments' as defined within The Waste Electric and Electronic Equipment (WEEE) Regulations 2013 (2012/19/EU)

As per the company's Environmental policy Andor are commitment to reducing any impact it may have on the environment and prevent pollution. As such we are currently working within the current EU legislation for the removal of all waste electronic and electrical equipment placed onto the EU marketplace.

Andor has labelled its electronic products with the WEEE label (crossed out wheelie bin) to alert our customers that products bearing this label should not be disposed off in a landfill or with municipal waste. If you have purchased Andor-branded electrical or electronic products in the EU after August 13, 2005, and are intending to discard these products at the end of their useful life, Andor are happy to assist. The cost for the collection, treatment, recycling, recovery and sound environmental disposal of these goods at the end of its useful life has not been included in the price. If you require help/assistance regarding the disposal of this equipment please refer to our website, or contact our sales team at which point instructions and a quotation can be provided.

Historical WEEE

Historical waste is defined as WEEE purchased before August 13, 2005.

The WEEE regulations does not legislate that Andor, as a 'producer', shall collect 'end of life' historical WEEE of its own brand, unless it is being replaced by new Andor equipment on a like for like basis. This 'end of life' WEEE should be recycled appropriately by the owner who should use proper treatment and recycling measures. It should not be disposed of in a landfill.

Like for like replacement historical WEEE – Under the WEEE regulations Andor is obliged to provide a take back process for 'any brand' purchased before August 13 2005 on a 'like for like' basis (like for like – is defined as any brand of equipment being replaced by a new Andor purchase of equipment providing the same basic function) Contact your sales representative for arrangement of this when placing your order.
